

Q1 - Welcome Applet

Java Source Code:

```
import java.applet.Applet;
import java.awt.Graphics;

public class WelcomeApplet extends Applet {
    public void paint(Graphics g) {
        g.drawString("Welcome to Java Programming", 50, 50);
    }
}
```

HTML File:

```
<html>
<body>
<applet code="WelcomeApplet.class" width="400" height="200">
</applet>
</body>
</html>
```

Compile / Run:

```
javac WelcomeApplet.java
appletviewer WelcomeApplet.html
```

Expected Output:

Welcome to Java Programming
